

◀ Claude Arberry has been sending slides to the Annual Slide Competition for years. Last year he won first in Class 9 for a close-up of a new rose ('Tequila Sunrise'). This year he won first in Class 12 for decorative design. The roses he arranged were 'Dee Bennett', orange blend miniatures hybridized by Harm Saville in 1988. Mr. Arberry lives in Campbell River on Vancouver Island.

▼ Ismail, Alexander and Gloria Elkholz enjoy a moment of togetherness in a sheltered corner of their garden amid their superlative roses. In 1994 they faced down an aggregate of 172 exhibitors in four societies in five days and mined a mountain of silver. Beginners' luck? no—pure passion.
